

## Colostrum Capsules

Food supplement

### Good to know:

Colostrum, also known as pre-milk, is the very first milk given by mammals to newborns to give them the optimal nourishment in the first few days. Colostrum contains lots of biologically active molecules such as immunoglobulin G (IgG). The colostrum used in our capsules is exclusively obtained from controlled stocks of cows within the first 24 hours of giving birth of calves. A cow produces normally more colostrum than the calf needs. Only the surplus may be used for the production of Colostrum Capsules.

**Ingredients:** Colostrum (67 %), Gelatin, separating agent Magnesium Stearate. Contains lactose and milk protein.

	per capsule	per daily dose (=2 capsules)	per 100 g capsules
Colostrum	400 mg	800 mg	67 g
of which Immunoglobulin G (IgG).	72 mg	144 mg	12 g

No nutrient reference value for the daily intake according to VO (EU) No. 1169/2011 has yet been established

**Recommended daily dosage:** Take 1 capsule 1-2 times daily. Swallow the capsule whole with sufficient liquid. Do not take with hot liquids.

Keep out of direct sunlight. Store dry and not above 25°C. Nutritional supplements should not be used as a substitute for a varied, healthy diet and do not replace a healthy lifestyle. Keep out of the reach of young children. The recommended daily dose should not be exceeded.
